

## ORANGE COUNTY'S TOP DENTISTS

### ALI & SHERY MANSOURI, DDS

The minute you walk through the door, you will know you've come to the right place. For the second year in a row, Drs. Ali and Shery Mansouri at Serene Dental Center in Irvine are acknowledged as Top Dentists in Orange County. As a husband and wife team, they have created a unique dental office that feels more like a spa than a dental clinic. This relaxing, soothing environment, combined with some of the most sophisticated technology in dentistry, sets a new standard of care and pampering.

At Serene Dental, they know not everyone loves going to the dentist. But Serene Dental's quality, gentle care eases your fears and makes your visit a little easier, and you'll benefit from the most advanced, state-of-the-art techniques available today. Their first priority is to get to know you in order to understand your needs and goals. They will work with you to develop a "master plan" for your dental care.

Drs. Mansouri believe the key to their success is creating a trusting relationship with their patients in addition to the high quality of care

in a soothing environment.

Both doctors earned their doctorates from USC, where they were both previous clinical instructors. They attend extensive continuing education in all fields of dentistry, especially in cosmetics. All treatment, whether simple, like fillings and cosmetic crowns, or complex, like implants, veneers or Invisalign, is performed with meticulous attention to detail. Both doctors believe in giving back to their community by giving educational seminars on periodontal disease, cosmetic dentistry and how pregnancy affects the health of the mother and baby.

On their personal time, Drs. Ali and Shery love to travel, cook, dine, play basketball, golf, yoga, watch USC football, and spend time with their newborn son.

Serene Dental's main goal is to build long-lasting dental relationships, whether you are looking for the latest in cosmetic dentistry, or just looking for a dentist who can help your family smile. They'll give you something to smile about.
